

ARMIN STROM

SWISS WATCH MANUFACTURE

Press Release Under Embargo Until May 20th, 2026, 5 PM CET

Biel/Bienne

Celestial Contrast: Dual Time GMT Resonance Aventurine

Two Time Zones, One Celestial Expression.

Armin Strom presents a new interpretation of its **Dual Time GMT Resonance**, distinguished by a dial crafted from **aventurine** – a material that **captures** the **richness** and **mystery** of a **star-filled sky**. Formed through a meticulous process that blends **centuries-old glassmaking** with modern precision, **aventurine** reveals a surface **alive with light**. The result is a dial that **evokes** a **night sky** in motion, creating a refined contrast with the **architectural symmetry** of the **resonance movement**. This **celestial texture** is enhanced by the warm tones of the movement: the **rose gold-coloured mainplate** adds depth beneath the dial-side display, while **rose gold-coloured hands** and **applied indexes** introduce clarity and visual identity. Together, these elements create a **balanced interplay** between cool luminosity and warm mechanical presence. Housed in a **39 mm stainless steel case** and paired with a **dark grey alligator strap**, the Aventurine edition offers a contemporary and restrained frame, allowing the dial's dimension and the movement's symmetry to take centre stage.

Resonance Across Time Zones.

Powering the watch is the manual-winding manufacture calibre **ARF22**, entirely **designed, developed** and **produced in-house**. Its **patented resonance clutch** - a **signature Armin Strom innovation** – **synchronises two independent regulating systems**, allowing both balance wheels to **oscillate in perfect harmony**. This constant interaction elevates **chronometric stability**, transforming a rare physical phenomenon into a practical advantage.

Each time zone features its own hours, minutes and day/night indicator, offering intuitive functionality for travellers. Operating at **3.5 Hz (25,200 vph)** with a **42-hour power reserve**, the **ARF22** unites scientific ingenuity with everyday usability.

Finishing in Depth.

Visible through sapphire crystals on both sides, the movement reveals Armin Strom's signature **open-worked architecture** and **hand-finishing**. The **rose gold-coloured mainplate** establishes a warm, luminous foundation on the dial side, while **matching gear-train bridges** on the reverse side echo this tone, creating a **cohesive visual language**. This harmony of colour and structure **accentuates depth and contrast**, reinforcing the three-dimensional expression of the calibre and the brand's commitment to the Science of Movement.

On the dial side, the **mirror-polished balance bridge**, finished with **hand-bevelled edges**, stands out as a **focal point**, its **steel surface catching the light** in striking counterpoint to the warm **rose gold-coloured mainplate** beneath. **Rhodium-coated** and **steel components** introduce a refined metallic grey tone, **balancing the overall composition**. Additional **hand-polished bevels**, **black-polished elements**, **circular graining** and **perlage** enrich the composition, while the reverse side features **Côtes de Genève**, further emphasising the movement's refinement. As with all Armin Strom timepieces, **each watch is assembled twice** to ensure both **mechanical precision** and **finishing excellence**.

Technical specifications

Dual Time GMT Resonance Aventurine, Reference no. ST26-DT.CT

Movement:	Armin Strom manufacture Caliber ARF22
Indications:	Double time zone with independent hours, minutes and day/night indicator
Winding mechanism:	Manual winding
Functions:	Resonance, GMT
Regulating system:	Two independent regulating systems connected by a resonance clutch
Power reserve:	42 hours
Dimensions:	34.15 mm × 4.92 mm
Frequency:	3.5 Hz (25,200 vph)
Jewels:	40
Number of components:	231
Case:	Stainless steel Sapphire crystal and case back with anti-reflective treatment
Water resistance:	5 ATM
Diameter:	39.00 mm
Height:	9.05 mm
Lug-to-Lug:	44.50 mm
Dials:	Aventurine with black azurage chapter rings Applied rose gold coloured coated polished indexes, Polished and blackened steel day/night discs
Hands:	Rose gold coloured coated, faceted and polished
Strap:	Matte grey alligator strap with grey stitching Stainless steel pin buckle
Limited Edition:	15 pieces
Price:	CHF 105'000.-

About Armin Strom

Armin Strom is an independent watch company based in Biel/Bienne, Switzerland, where Swiss-German horological tradition blends seamlessly with innovative, open-worked design. Renowned for its artisanal, low-volume approach, the brand meticulously hand-finishes every component to haute horology standards, with a signature focus on exposing movement mechanics on the dial side. Founded in 1967 by Armin Strom, the company was revitalized in 2009 by Master Watchmaker Claude Greisler and entrepreneur Serge Michel. Today, Armin Strom designs, develops, and assembles every timepiece in-house, creating a perfect balance of uncompromising quality, innovation, and transparency. We call it the Science of Movement. www.arminstrom.com
