

ARMIN STROM

SWISS WATCH MANUFACTURE

Press Release Under Embargo Until 26th of August, 2025 - 5.00 PM CET

Biel/Bienne

Armin Strom introduces the Tribute 1 Sandstein: inspired by the brand's origin.

Purity, Cast in Sandstone.

With its warm sandy colours, the Tribute 1 Sandstein honours Armin Strom's hometown of Burgdorf in the canton of Bern, Switzerland. The native Burgdorf sandstone - long a symbol of strength, timelessness and a defining element of the region's architecture - now inspires this refined interpretation of the Tribute 1. The off-centre sand-toned dial, adorned with a **grain d'orge guilloché pattern** and Roman numerals, is complemented by a **frosted subdial**, creating a harmonious composition. A matching Alcantara strap provides the finishing touch. Encased in a slender 38 mm stainless steel case with alternating brushed and polished finishes, the Sandstein introduces a grounded yet elegant character to the Tribute 1 collection.

AMW21: Holding Time for 100 hours.

Inside beats the in-house **Caliber AMW21**, a manual-winding movement that embodies Armin Strom's pursuit of mechanical elegance. Delivering an impressive **100 hours of power reserve**, it ensures reliability and consistency in daily wear. The visible motor barrel, held by a mirror polished finger bridge, adds a technical touch to the dial side giving the Tribute 1 Sandstein a distinctly modern character while staying true to traditional Swiss watchmaking values.

Decoration That Defines the Difference.

Through the sapphire crystal on both sides, the movement reveals the craft of Armin Strom's hand-finishing. **Hand-bevelled bridges with polished and matte surfaces, together with black-polished screws, highlight the detail, while Geneva stripes and circular graining enrich the movement.** Each Tribute 1 Sandstein is **assembled twice**, a hallmark of the brand's commitment to mechanical precision and aesthetic integrity.

Technical specifications

Tribute 1 Sandstein, Reference no. ST25-TRI.41

Movement:	Armin Strom Manufacture Caliber AMW21
Indications:	Hours, minutes, seconds
Winding mechanism:	Hand-winding
Functions:	Motor barrel
Regulating system:	Flat hairspring with a variable inertia balance wheel
Power reserve:	100 hours
Dimensions:	33.5 mm x 4.2 mm
Frequency:	3.5 Hz (25,200 vibrations per hour)
Jewels:	21
Number of components:	135
Case:	Stainless steel Sapphire crystal and case back with anti-reflective treatment
Water resistance:	5 ATM
Diameter:	38 mm
Height:	9.38 mm
Lug-to-Lug:	18 mm

About Armin Strom

Armin Strom is an independent watch company based in Biel/Bienne, Switzerland, where Swiss-German horological tradition blends seamlessly with innovative, open-worked design. Renowned for its artisanal, low-volume approach, the brand meticulously hand-finishes every component to haute horology standards, with a signature focus on exposing movement mechanics on the dial side. Founded in 1967 by Armin Strom, the company was revitalized in 2009 by Master Watchmaker Claude Greisler and entrepreneur Serge Michel. Today, Armin Strom designs, develops, and assembles every timepiece in-house, creating a perfect balance of uncompromising quality, innovation, and transparency. We call it the Science of Movement. www.arminstrom.com
