Press Release Under Embargo Until January 15th, 2025 - 5.00 PM CET Biel/Bienne

Tribute² Aurum – A new trembling expression

A New Tribute, A New Texture.

Building on the foundation laid by the Tribute 1, the *Tribute² Aurum* Edition pushes the limits of artisanal decoration. **More openworked and skeletonised** than its predecessor, this edition enhances the architectural presence of the movement while revealing even more of the **hand-finished detail** that defines the collection. A gold coated mainplate, crafted from brass and finished by hand with the **rare tremblage technique**, sets the stage with a rich texture and depth. Paired with a grey fumé off-center dial and layered construction, the design invites a deeper appreciation of contrast, craft and dimensionality.

The Pulse of Independent Watchmaking.

The hand-wound **AMW21** movement, **developed** and **manufactured entirely in-house**, delivers an impressive **100-hour power reserve**. This performance is made possible by the movement's **innovative motor barrel** construction, in which the arbor delivers the energy to the gear train – a configuration that improves efficiency while optimising space within the movement. Operating at a frequency of 25,200 vibrations per hour (3.5 Hz), the calibre features a **variable inertia balance wheel** and a **flat spring**, supported by the system 78 signature finger bridge.

Decoration, Elevated.

True to Armin Strom's artisanal ethos, the *Tribute² Aurum* is an ode to **hand-finishing** at its highest level. The centrepiece is its gold coated **tremblage finished mainplate** – a **rare engraving technique** that reflects light with an irregular texture, adding vibrancy and depth. The front side showcases a **skeletonised motor barrel** with **hand-polished bevelled spokes** as well as a **black-polished, bevelled steel finger bridge**.

On the back, the movement reveals a three-quarter bridge with **Geneva stripes** and **circular graining**, but it's the **60° hand-polished bevel** that elevates it as a tribute to craftsmanship. A three-dimensional escapement wheel bridge with a **polished sink** adds a sculptural flourish. Each *Tribute² Aurum* is **assembled twice**, a hallmark of the brand's commitment to mechanical precision and aesthetic integrity.

Limited to 10 pieces, the *Tribute² Aurum* continues the story of the *Tribute* collection.

Technical specifications

Tribute² Aurum, Reference no. ST25-TRI.2E

Movement:	Armin Strom Manufacture Caliber AMW21
Indications:	Hours, minutes, seconds
Winding mechanism:	Hand-winding
Functions:	Motor barrel
Regulating system:	Flat hairspring with a variable inertia balance wheel
Mainplate:	Tremblage, gold coated
Power reserve:	100 hours
Dimensions:	33.5 mm x 4.2 mm
Frequency:	3.5 Hz (25,200 vibrations per hour)
Jewels:	21
Number of components:	137
Case:	Stainless steel Sapphire crystal and case back with anti-reflective treatment
Water resistance:	5 ATM
Diameter:	38 mm
Height:	9.38 mm
Lug-to-Lug:	18 mm
Dial:	Grey fumé, off-center
Hands:	Gold coated Polished with Super-LumiNova® filling
Strap:	Epsom taupe strap with taupe stitching Stainless steel pin buckle
Limited Edition	10 pieces
Price:	CHF 27'000.-

About Armin Strom

Armin Strom is an independent watch company based in Biel/Bienne, Switzerland, where Swiss-German horological tradition blends seamlessly with innovative, open-worked design. Renowned for its artisanal, low-volume approach, the brand meticulously hand-finishes every component to haute horology standards, with a signature focus on exposing movement mechanics on the dial side. Founded in 1967 by Armin Strom, the company was revitalized in 2009 by Master Watchmaker Claude Greisler and entrepreneur Serge Michel. Today, Armin Strom designs, develops, and assembles every timepiece in-house, creating a perfect balance of uncompromising quality, innovation, and transparency. We call it the Science of Movement. www.arminstrom.com
